HALDEN SPORT · WELCOME FLOW

Brand: HALDEN Sport, sports supplements (spec project, fictional brand)

Goal: Turn new subscribers into a first order within 7 days

Trigger: Joins the email list through the sign-up pop-up

Exit: Places an order

Emails: 3 emails over 7 days, with a 15% welcome code (WELCOME15)

EMAIL 1

Timing: Immediately on sign-up

Subject: Your 15% off (and what most labels won't tell you)

Preview: Check the back of your current tub before you read this.

> **WHY IT WORKS** The code is on the first line, because that's what the subscriber signed up for. Asking them to turn their own tub around makes them find the problem themselves. Specific numbers replace adjectives, the guarantee removes the risk of a first order, and the P.S. repeats the offer for people who only read the start and the end.

Hey there,

Here's your 15% off your first order:

CODE: WELCOME15

It's yours for the next 7 days, on everything.

Now, a quick favor. Grab any supplement tub in your kitchen and turn it around.

If you see the words "proprietary blend," here's what that means: the brand tells you the total weight of the mix, but not how much of each ingredient is inside. You could be paying for a full dose of the one thing that matters, or a sprinkle of it. There's no way to know.

That's why we started HALDEN.

EVERY DOSE ON THE FRONT OF THE LABEL

- Whey Isolate: 25 g of protein per scoop
- Creatine Monohydrate: 5 g per serving, nothing added
- Electrolyte Mix: sodium, potassium and magnesium, zero sugar

Every batch is third-party tested for banned substances. And if it's not right for you, you have 30 days to get a full refund. No forms, just reply to any email.

CTA: **Get my 15% off**

Train hard,

Erik

Founder, HALDEN Sport

P.S. Your code WELCOME15 expires in 7 days. Try it for 30 days, and if it's not for you, you get every cent back.

EMAIL 2

Timing: Day 2

Subject: You need fewer supplements than you think

Preview: Here are the only 3 we'd start with.

> **WHY IT WORKS** The contrarian opening (buy less) sets HALDEN apart and earns trust. Each product answers "for which goal," so readers pick themselves. Telling people when not to buy makes every recommendation more credible, and listing what HALDEN doesn't sell sharpens the brand without attacking anyone.

Hey there,

Most supplement brands want you to buy everything.

We'd rather you bought less, and bought what actually does something.

If you train 3 to 5 times a week, here's the honest version:

IF YOUR GOAL IS STRENGTH

Creatine Monohydrate, 5 g a day. One of the most researched supplements in sport. One simple daily serving, no loading phase, no complicated stacks.

CTA: **Start with Creatine**

IF YOU STRUGGLE TO GET ENOUGH PROTEIN

Whey Isolate, 25 g of protein per scoop. If you already get enough protein from food, save your money. If you don't, it's 25 g in a shake that takes 10 seconds.

CTA: **Start with Whey Isolate**

IF YOU SWEAT A LOT

Electrolyte Mix. When you sweat, you lose sodium, not just water. Our mix provides sodium, potassium and magnesium, with zero sugar. Made for hard sessions and hot days.

CTA: **Start with Electrolytes**

What's not on this list: fat burners, "testosterone boosters" and anything sold as a proprietary blend. We don't make them, and most people don't need them.

Still not sure? Hit reply and tell me how you train. I read every email, and I'll point you to what fits your training.

Train hard,

Erik

Founder, HALDEN Sport

P.S. Your code WELCOME15 is still active for 5 more days, and whatever you choose is covered by our 30-day guarantee.

EMAIL 3

Timing: Day 7, the last day of the code

Subject: Your 15% ends at midnight

Preview: Creatine for $0.48 a day. Last chance to grab it.

> **WHY IT WORKS** Price per serving turns $34 into 48 cents a day and answers the last objection, price, without a bigger discount. The deadline is stated at the top and again at the button, because urgency is this email's one job. The P.S. points undecided readers to the cheapest, simplest first product.

Hey there,

Quick heads-up: your 15% off ends at midnight tonight.

CODE: WELCOME15

If you've been on the fence, here's what HALDEN costs per serving with your code:

- Creatine Monohydrate: $0.48 a serving
- Whey Isolate: $1.53 a serving
- Electrolyte Mix: $0.82 a stick

And you're not taking a chance on it. Every dose is on the front of the label, every batch is third-party tested, and you have 30 days to try it. If it's not for you, reply to any email within 30 days and we'll refund you in full.

CTA: **Use my 15% before midnight**

After midnight, WELCOME15 stops working.

Train hard,

Erik

Founder, HALDEN Sport

P.S. Not sure which one to pick? Start with creatine. It's the simplest habit in the store: one scoop a day, for less than 50 cents.
